Issue for configuration—The problem with `std::vector` is that it does not support the `std::move` operation. The solution is to use `std::move` to move the elements from the `std::vector` to the `std::vector` and then use `std::move` to move the elements from the `std::vector` to the `std::vector`.

UNIVERSITY OF MADRAS

NOTES AND DIRECTIONS OF THE PRINCIPALS FOR THE ADMISSION OF HOLDERS OF SECONDARY EDUCATIONAL CERTIFICATES TO UNIVERSITY COURSES OF STUDY.

I. *Admission of holders of secondary school leaving certificates to University courses of study in the students year 1915-16 and subsequent years shall be made only in accordance with the revised rules and directions of the Syndicate herein contained.*

II. *Such holders only of completed secondary school-leaving certificates may be admitted to University courses of study, and will be registered as undergraduates under Regulation 168-A as hereinafter directed eligible for such admission by the Syndicate.*

III. *A complete list of certificate-holders declared eligible for admission to University courses of study will be published annually in the Port St. George Gazette and a copy of the list will be forwarded to each Principal of an affiliated college. In no circumstances may any certificate-holder not included in one of these lists be admitted to an affiliated college other than a College for Women, and will any such certificate-holder be entitled to registration as a matriculate under Regulation 168 (4) except as provided in paragraph VII below.*

IV. *In the case of certificate-holders under the authority of the Government of Madras these holders of certificates who qualify under the following rules will be included in the list of those declared eligible by the Syndicate for admission to University courses of study:—*

1. *Secondary school-leaving certificate-holders shall be eligible for admission to University courses of study whose marks in the Public Examination or whose marks after moderation are*

(a) in Group A subjects

either

(i) in English five marks above the Presidency average and in each of the other two subjects (except Vernacular Composition and Translation in the case of school pupils who study a classical or a foreign language under Group C) not less than the Presidency average;

or

(ii) of the total marks, in English 60 per cent and in each of the other two subjects (except Vernacular Composition and Translation in the case of school pupils who study a classical or a foreign language under Group C) and are therefore awarded the study of the former subject under Group A, 35 per cent;

(b) in Group B subjects

either

(i) five marks above the Presidency average in Algebra and Geometry, or Physics, or Chemistry, or English History, and not less than the Presidency average in one other subject;

or

(ii) of the total marks, 40 per cent in Algebra and Geometry, or Physics, or Chemistry, or English History, and 30 per cent in one other subject.

2. *A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition or in Elementary Mathematics shall be eligible for admission, provided he obtains seven marks in English and the other subject of Group A taken together equal in number to twice the number of marks by which he is deficient in the subject in which he fails.*

3. *A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition and in Elementary Mathematics shall be eligible for admission, provided he obtains seven marks in English equal in number to twice the total number of marks by which he is deficient in the two other subjects.*

4. *A secondary school-leaving certificate-holder who qualifies in one of the four selected subjects in Group C but who fails to qualify in a second subject of that group shall be eligible for admission, provided that in the former subject he obtains seven marks equal in number to twice the number of marks by which he is deficient in the latter subject.*

5. *A secondary school-leaving certificate-holder who fails to qualify in Vernacular Composition, or Elementary Mathematics or in both, and who is a second subject of Group C may be declared eligible for admission, provided that he obtains seven marks or above both in the other subject or subjects in Group C and in one of the four selected subjects of Group C.*

6. *The eligibility of a school-leaving certificate-holder will be determined for each Group of subjects separately, by the test of Presidency average or fixed percentage throughout, or by the test of Presidency average in Group A and fixed percentage in Group C, or vice versa.*

7. *In the case of certificate-holders issued under the authority of Native States in the territorial jurisdiction of the University similar standards for admission will be applied.*

8. *The moderation of the marks obtained by a holder of a secondary school-leaving certificate for the purpose of the above rules will be effected as follows:—*

The individual mark gained by him for the last year at school in each subject will be multiplied by the average mark for the school in the Public Examination and the result divided by the average mark received of the certificate-holders from the school actually appearing for the Public Examination. The figure thus obtained will be added to the individual mark gained by him at the Public Examination and the total will then be divided by two to obtain the final moderated mark.

9. *Holder certificate-holders for admission to colleges who are holders of certificates completed in a year previous to their candidature, may submit their certificates in this office for inspection not later than the 30th April. Every such certificate will be judged by examination marks alone according to the rules in force for certificate-holders completed in the year in which it is submitted for inspection except that in the case of certificate-holders completed prior to 1917 the best performance in each subject in any year will be taken into consideration.*

10. *Any candidate for admission to University courses of study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination will be required to undergo a supplementary course at school in all the subjects of Group A and in two subjects of Group C. He must again appear at the Public Examination at the close of the supplementary course and his eligibility for admission will be determined as if he had then appeared for the examination for the first time. In the case of a candidate who, after undergoing a supplementary*

course and examination, has failed again to qualify for admission to University courses of study, and who is permitted to appear at the Public Examination in a subsequent year after private study, starting for admission will be determined upon his last examination marks being.

VII. Notwithstanding anything contained in the foregoing rules the Principals of Colleges for Women will be permitted to make admissions at their discretion at final holidays of secondary schools leaving certificate holders or not the names of such holders of certificates are included in the published list of certificate-holders eligible for admission to University courses of study. Certificate-holders so admitted to Colleges for Women will be registered as matriculates under Regulation 268 (a).

VIII. The lists published annually in the Fort St. George Gazette will contain the names of all certificate-holders found to be eligible for admission to University courses of study in affiliated colleges, other than Colleges for Women, under the rules and conditions issued by the Senate. It is, however, to be clearly understood that entrance to the list confers on its certificate-holders the right of admission to any affiliated college. The Principals of Colleges are at perfect liberty to refuse admission to such applicants as they may select and are moreover required strictly to refuse admission to such eligible certificate-holders as, judged by their certificates, may be expected to profit by the particular courses of study upon which they propose to enter in the college selected.

Senate House, 1st November 1914.

Report of the Select Committee on the Bill to prevent the spread of insect pests, plant diseases and noxious weeds. PAGE 117

Summary:
And the Bill of 1918—The Madras Prevention of Adulteration Act—(Madras).

Report of Select Committee to be presented to the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

To

THE HONOURABLE THE COUNCIL OF THE GOVERNOR OF FORT ST. GEORGE FOR MAKING LAWS AND REGULATIONS.

We, the members of the Select Committee, appointed to report upon the Bill for the prevention of the spread of insect pests, plant diseases and noxious weeds, have the honour to submit the following report.

2. We have received no representations from the public in regard to the Bill.

3. We have carefully considered an important question of policy which has been raised, viz., the question whether either the initiation or execution of measures under the Bill or both should be placed in the hands of local bodies instead of in those of the Government and their officers. We have decided that, so far as the initiation of action is concerned, it is desirable that such action should proceed on uniform lines for the whole Presidency and therefore that the responsibility should rest, as proposed in the Bill, with the Government. As regards the execution of the law, while we consider that it must ordinarily be placed in the hands of a regular expert staff, we recognize the advantage—whenever such a course is possible—of leaving the detailed administration of the law to local bodies or local officers. We have therefore added a clause to the Bill as clause 13 giving to the Government authority to delegate all or any of their powers.

4. The large powers conferred upon inspecting officers by clause 5 of the Bill were the subject of discussion, doubts being expressed whether at the outset the inspecting agency would be sufficiently large or sufficiently expert to be safely entrusted with the somewhat arbitrary powers conferred by that clause. We have

ST. 1.

decided to recommend, in modification of the original provision, that a notice served by an inspecting officer demanding remedial or preventive action by an occupier of land should be subject to an appeal. We have also omitted the power originally given by clause 6 to an inspecting officer to carry out such remedial or preventive measures himself; the result is that no such action can, under the Bill, as we have amended it, be taken without previous notice to the occupier. As action of the kind indicated will usually be of some urgency we have allowed as the appeal time only seven days.

5. In clause 7 of the Bill and consequently in clause 9 we have introduced a change in principle. Clause 7 (3) of the original Bill prohibited the grant of any compensation for action taken by the inspecting officer in cases where the occupier, after notice received, had failed to carry out remedial or preventive measures. We have decided to recommend that in such cases compensation should be payable.

6. In another case in which under the Bill as drafted compensation was denied, viz., in the case of a tree actually infected—clause 9 (1) (a)—we have similarly decided that compensation should be admissible; but to mark the distinction which the original Bill maintained between the cases of plants actually infected and those not necessarily infected or only liable to infection we propose in the first case to allow as compensation not more than half the value of the tree destroyed. We have amended clause 9 accordingly and have taken the opportunity to omit the two provisions to that clause; the first has been rendered superfluous by our other amendments and the second we regard as unnecessary.

7. We have considered various proposals for associating with the inspecting officer, a local committee or panchayat but we have decided that such an arrangement would for practical purposes be unworkable. We have also considered and decided to negative a proposal that claims for compensation under clause 9 should, on the analogy of land acquisition cases, be made to and decided by the Collector, with an appeal to the District Court.

8. Amongst other alterations we have expanded the definition of "occupier" so as to make it clear that the expression includes a local authority and a railway or other company and under clause 4 we have added an explanation making it clear that Government, equally with the private occupier, are bound to carry out remedial and preventive measures on lands in their possession. We have also, in clause 9 (1) of the Bill as amended, provided that, where an inspecting officer has found it necessary to destroy any tree or plant, he shall serve on the occupier a notice giving particulars of what he has done and an estimate of the value of the tree or plant destroyed. Other amendments are merely verbal in character.

9. We recommend that the Bill as amended by us be passed into law.
